

Governor's Cabinet & Lobbyist Section

Overview

The Governor's Cabinet and Lobbyist section offer one of the most unforgettable experiences available at the State Conference, allowing its member delegates to participate in the legislative process from the unique perspective. Although they do not present their own bills, governor's cabinet members and lobbyists have the privilege of being able to speak in favor of or against bills presented during chamber sessions. Participants are expected to engage professionally with one another in discussing legislation.

Governor's Cabinet members are seasoned delegates who work directly with the Youth Governor. The Youth Governor sets the legislative priorities and agenda for the State Conference. Members will work collaboratively to lobby in the legislative chambers to advocate for the Youth Governor's agenda, which is composed of specific bills or issues they would like to see debated and acted upon.

Lobbyists are veteran delegates who can contribute to legislative debates by advocating to legislators on bills and representing their own and other delegates' interests during debates. Our goal for our Lobbyist section is for participants to engage professionally with one another in discussing legislation about which the Youth Governor is passionate and to persuade legislative delegates to align with the lobbyists views of the bill. They will also develop debate and technical skills related to lobbying or working in the state government. Lobbyists are given much freedom throughout State Conference, including moving between legislative rooms in the hotel and the Capitol, and thus are expected to respect all officers, delegates, and staff.

Governor's Cabinet and Lobbyist members must have at least one year of Legislative experience. The application to participate in this section opens during State Conference registration in December. Delegates should review the criteria below before applying.
